

Technologies to put you in complete control of operations.
Reliable engineering you can count on every time.
Cutting edge engineering for harsh environments.

Proserv provides highly reliable topside system equipment and components to improve uptime and minimise maintenance intervals. Proserv's team of experienced engineers and technicians understand the complexity of operations both onshore and offshore in today's energy environment and extending the life of a rig has become vital to the bottom line. We ensure that the focus on equipment performance optimisation, reliability, economy and product support is efficient, cost effective and ingeniously simple.

Our brand heritage

We have the knowledge and expertise to support and maintain the following brands:
