

# Proserv SCA areas of expertise

## Specialist Sales:

We are a distributor of pumps, valves, fittings, high pressure hoses and tubing, such as **Parker, Haskel, Autoclave and Gilmore.**

Email: [trading@proserv.com](mailto:trading@proserv.com)

## Topside Controls:

We manufacture and produce a wide range of products (wellhead control panels, topside/subsea HPU, control panels, pressure testing equipment, chemical injection skids, etc.). We also offer standard and tailor-made products. Our new facilities allow smart interaction with the rest of our workshop and areas for FAT and office locations for our customers during FAT.

Email: [quote@proserv.com](mailto:quote@proserv.com)

## Service:

We offer, repair and maintenance services to ensure equipment is kept to the highest standards and ready at short notice. All serviced products are added to our service portal and called back up when due for next service, this can be done both onshore and offshore. We service pumps, panels, HPU's and BOP control systems, also do umbilical flushing and pressure testing.

Email: [service@proserv.com](mailto:service@proserv.com)

## Lab Services:

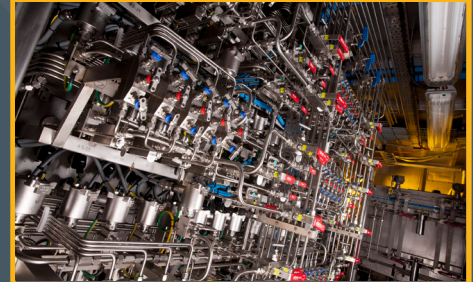

We do calibration and testing both onshore and offshore. All calibration done by Proserv Stavanger is traceable to an accredited laboratory. We also calibrate and test manometers, gauges, and set up of safety valves.

Email: [service@proserv.com](mailto:service@proserv.com)

## Sampling:

Proserv develop, design and manufacture a wide range of products and rental solutions for sampling, including sample containers, transport cylinders and chemical injection systems. Sample cylinders: TPED - PROLIGHT - PROFISC - PROMIX - PROLARGE - PROAL

### Rental:

Looking for a fast, cost-effective way to access critical equipment without long-term investment? Proserv's rental services give you access to high-performance technology, ready to use when you need it most.

We offer a wide range of equipment for subsea and topside operations, including:

- Sampling systems - subsea, topside and downhole
  - Intervention and workover control systems
  - Air / electric pumps for pressure testing and flushing
  - Gas booster units
  - Remote pump control
  - Instrumentation and calibration equipment
  - Electric & diesel UHP / hot water washers for pipe flushing, surface treatment, ROV cleaning
- All our rental products are thoroughly tested, certified and delivered with full technical support, so you can focus on operations, not equipment.

**Proserv provides more than equipment, we deliver dependable solutions tailored to your needs.**
